

Pre-Writing Practice

- **Develop fine motor skills**
- **Develop handwriting & foundation for letter formation**

Welcome

Prewriting Practice

Thank you for downloading the Pre-Writing Practice packet. This resource provides a variety of lines, shapes, and letters for practicing. I am not an occupational therapist, but I have worked with one in a classroom setting. I used what I learned about pre-writing lines as a first year teacher to develop this resource. This product has not been reviewed by an occupational therapist, and I cannot guarantee that this product will improve your students fine motor skills and/or develop their writing skills. This product is intended for learning purposes only and I recommend consulting with an occupational therapist before using this product to supplement your students OT goals/therapy. I have included links to articles online that explain pre-writing lines.

Activity Directions:

- Color the party hat and "2023"
- Be creative and have fun!
- Add glitter!

Don't forget to please follow me!

Thank you!
